

SUBMITTAL SHEET

Cerieceo Fast Drop Reducing Nipple Model A & A3

MATERIAL SPECIFICATIONS:

Schedule 40 pipe conforming to ASTM A53

Threads conforming to ANSI B1.20.1 NPT.

UL Listed and FM Approves, cUL pending.

For use in both wet and dry systems.

175 psi working pressure.

Can be used in residential and commercial applications as determined by NFPA 13.

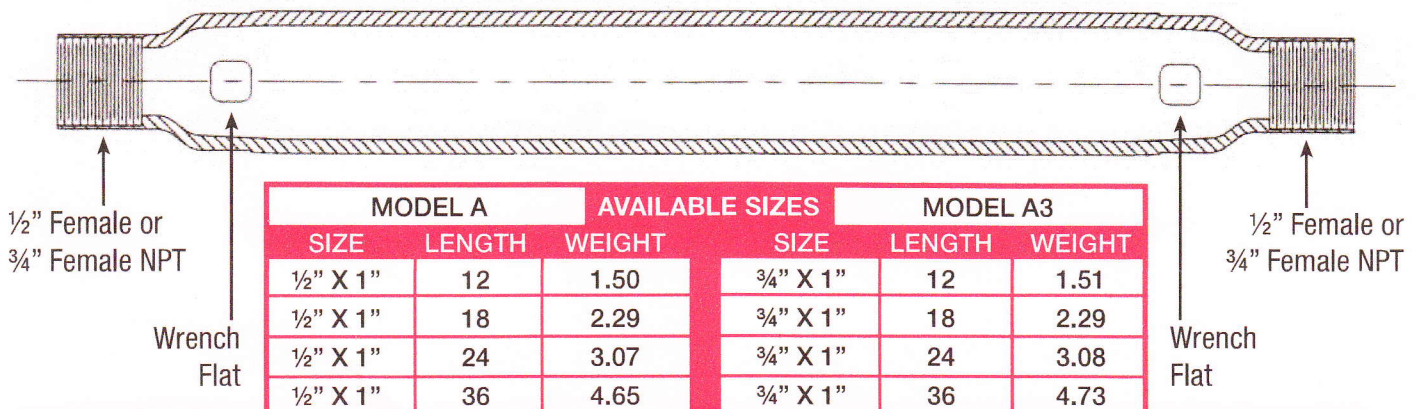

Model A has 1/2" female thread on both ends of 1" Sch 40 pipe and is designed to be cut to length and threaded with 1" male threads to form two drop nipples.

Model A3 has 3/4" female thread on both ends of 1" Sch 40 pipe and is designed to be cut to length and threaded with 1" male threads to form two drop nipples.

The finished drops can be removed without the possibility of the reducing coupling separating from the pipe using the Fast Drop Removal Tool.

Fast Drop can be used in plastic systems subject to the installations guidelines of the plastic systems manufacturer and the AHJ.

Fast Drop can be used in retrofit applications with approval from the AHJ.
